

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A wood floor edger comprising:
a first housing comprising an ~~[[and]]~~ opening and a rotatable abrasive disc located in said opening, said rotatable abrasive disc having a diameter greater than six inches; ~~and~~
a motor operatively connected to said first housing and drivingly connected to said abrasive disc; and
a fan located in said first housing, said fan being drivingly connected to said motor.
~~said wood floor edger having a weight of less than twenty-eight pounds.~~

Claim 2 (original): The wood floor edger of claim 1, wherein said rotatable abrasive disc has a diameter of about seven inches.

Claim 3 (original): The wood floor edger of claim 1, wherein the weight of said wood floor edger is about twenty seven pounds.

Claim 4 (original): The wood floor edger of claim 1, wherein said motor is rotatable at a speed of greater than ten-thousand revolutions per minute.

Claim 5 (original): The wood floor edger of claim 1, wherein said motor is rotatable at a speed of about ~~[[than]]~~ ten-thousand ~~[[,]]~~ five-hundred revolutions per minute.

Claim 6 (original): The wood floor edger of claim 1, wherein said abrasive disc is rotatable at a speed of about three-thousand two-hundred revolutions per minute.

Claim 7 (original): The wood floor edger of claim 1, wherein said motor has horsepower greater than two.

Claim 8 (original): The wood floor edger of claim 1, wherein said motor has horsepower of about 2.4.

Claim 9 (original): The wood floor edger of claim 1, wherein said motor is connected to said rotatable abrasive disc by a belt.

Claim 10 (cancelled)

Claim 11 (currently amended): The wood floor edger of claim 1, wherein said fan is located within a compartment within said first housing.

Claim 12 (currently amended): The wood floor edger of claim 9, wherein said ~~second~~ first housing comprises a port located adjacent said fan and wherein a vacuum device is attachable to said port.

Claim 13 (original): The wood floor edger of claim 1, and further comprising at least one wheel attached to said first housing.

Claim 14 (original): The wood floor edger of claim 1, wherein said first housing has a port extending therethrough, and wherein a vacuum device is attachable to said port.

Claim 15 (original): The wood floor edger of claim 1, and further comprising a second housing having a handle attached thereto.

Claim 16 (original): The wood floor edger of claim 14, wherein said handle is located opposite said opening of said first housing.

Claim 17 (currently amended): A wood floor edger comprising:
a first housing comprising an ~~[[and]]~~ opening and a rotatable abrasive disc located in said opening, said rotatable abrasive disc having a diameter greater than six inches; ~~[[and]]~~
a motor operatively connected to said first housing and drivingly connected to said abrasive disc; ~~[[and]]~~
a fan located in said first housing, said fan being drivingly connected to said motor; and
a motor controller electrically connected to said motor;
wherein said motor is operatable at a speed that is preselected by said motor controller.

Claim 18 (original): The wood floor edger of claim 17, wherein said rotatable abrasive disc has a diameter of about seven inches.

Claim 19 (original): The wood floor edger of claim 17, wherein the weight of said wood floor edger is about twenty seven pounds.

Claim 20 (original): The wood floor edger of claim 17, wherein said motor is rotatable at a speed of greater than three thousand revolutions per minute.

Claim 21 (original): The wood floor edger of claim 17, wherein said motor is rotatable at a speed of about ten-thousand five-hundred revolutions per minute.

Claim 22 (original): The wood floor edger of claim 17, wherein said motor has horsepower greater than two.

Claim 23 (original): The wood floor edger of claim 17, wherein said motor has horsepower of about 2.4.

Claim 24 (original): The wood floor edger of claim 17, wherein said motor is connected to said rotatable abrasive disc by a belt.

Claim 25 (cancelled)

Claim 26 (currently amended): The wood floor edger of claim 17 ~~[[25]]~~, wherein said fan is located within a compartment within said first housing.

Claim 27 (currently amended): The wood floor edger of claim 25, wherein said ~~second~~ first housing comprises a port located adjacent said fan and wherein a vacuum device is attachable to said port.

Claim 28 (original): The wood floor edger of claim 17, and further comprising at least one wheel attached to said first housing.

Claim 29 (original): The wood floor edger of claim 17, wherein said first housing has a port extending therethrough, and wherein a vacuum device is attachable to said port.

Claim 30 (original): The wood floor edger of claim 17, and further comprising a second housing having a handle attached thereto.

Claim 31 (original): The wood floor edger of claim 30, wherein said handle is located opposite said opening of said first housing.

Claim 32 (new): The wood floor edger of claim 1, wherein said wood floor edger has a weight of less than twenty-eight pounds.

Claim 33 (new): The wood floor edger of claim 1, wherein said motor is a brushless motor.

Claim 34 (new): The wood floor edger of claim 30, wherein said motor is located between said first housing and said second housing.
